

**Txt-2-Win** gives you the ability to create and automate text contests. With **Txt-2-Win** you can choose the contest length, create rules for the number of entries allowed, create custom responses and set other parameters. Create a winning text message that can be sent manually or automatically based on the rules you set.

## Why have a Txt-2-Win contest?

**Txt-2-Win** Contests are one of the most powerful ways to engage your audience while giving them a great incentive to join your opt-in promotion list.

By collecting a large number of subscribers, the long term benefits of an effectively run text contest are even more valuable. Long after the winner has been drawn, you retain a large pool of potential customers who are only a text message away.

**UNLIMITED OUT GOING AND INCOMING MESSAGING**

**UNLIMITED KEYWORDS**
